GAME DESCRIPTION

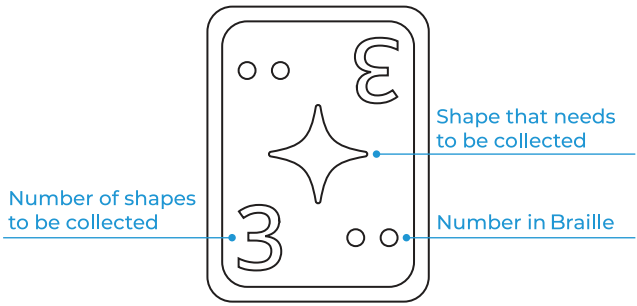

Number of players: 2 - 5
Age: 6+

Set includes:

- 75 shapes (5 of each) + 10 spare shapes (2 of each)

- 25 cards (1 to 5 for each shape)

1

Players begin the game by shuffling the cards and one of the players distributes 5 cards to each player. The cards are placed face down on the table, none of the players are allowed to see the cards they are given yet.

2

Then the shapes are placed in the middle of the table so that each player can reach them.

3

Game Mode A:
Players turn the cards around at the same time and the cards stay face up in front of them.

Game Mode B:
Players turn the cards around at the same time and they have 15 seconds to remember their cards. After the time is up, the cards are put back face down (15 seconds is our recommended time, players can adapt this).

Game Mode C (Blindfold Mode):
This game can also be played with a blindfold due to the design of the cards since shapes and numbers are embossed and they can be recognized by touch as well. Right before the players turn the cards around to check which shapes they need to collect and how many, they place a blindfold.

4

Players start collecting shapes at the same time. The goal is to find the corresponding shape as well as match the number of shapes written on the card. The player who finds the corresponding shapes in the shortest amount of time wins the game.

DESIGNED FOR VISUALLY IMPAIRED PERSONS

This game has been designed in a way that people who are visually impaired can play it as well. Shapes have been embossed on cards so that they can be recognized by touch and numbers written in Braille.
